SCRAP WATER CHARGES - END AUSTERITY

The enormous popular protest against water charges and austerity continues and is spreading across the country.

We are winning. The protests have terrified the government and forced them to make a number of u-turns

In a desperate attempt to end the popular revolt, they have been forced to reduce the charges, bribe us with a grant of €100, extend the deadline for registering over and over again, and withdraw the threat of cutting off people's water.

However, we do not want water charges changed we want them scrapped totally and the super quango that is Irish Water must be dismantled.

We should also join the people of Greece and Spain in demanding a total end to the failed and unfair policy of austerity.

Over €600 million of our money has been wasted, setting up Irish Water – most of it going to consultants and contractors like Denis O'Brien's GMC Sierra. No leaks have been fixed, no new infrastructure was built.

The money has come straight out of our pockets – whether in Property Tax or Motor Tax.

The whole project is a total fiasco. We beat water charges in the 1990's and we can do it again. We need to stand together, build the protests in every estate, community and county and help to organize resistance when the bills arrive in April.

Mass protests and community organization can defeat water charges and the whole failed project of austerity.

The next **NATIONAL DEMONSTRATION AGAINST WATER CHARGES** is taking place on **SATURDAY 21nd MARCH @ 2PM**
